## **Course Description:**

This course aims to provide students with the basic tools of macroeconomic theory used to analyze real-world economic problems and evaluate proposed policy interventions. Throughout the semester, we will explore topics such as national income, short-run fluctuations in the economy, long-run trends and the growth of nations, unemployment, inflation, and their interactions with the government's fiscal policy measures and monetary policy.

Regular walk-in office hours will be held every Monday, Wednesday, and Fridays from 11:00 AM to 12:30 PM in CSB 248. In addition to these designated hours, you can also arrange appointments by visiting <https://calendly.com/brianhwpark>. Students can select 30-minute intervals for appointments, and booking consecutive sessions is permissible. If these alternatives are not suitable, students are encouraged to contact the instructor via email.
